

Multiplex Brain Network Analysis in Neurodegenerative Disorders

Conferenza: International Conference on Complex Networks Complex Networks 2022

Relatore: Prof. Nicola Amoroso | Data: Dicembre 2022

Punti Chiave della Presentazione / Slide Highlights:

- * Multilayer and multiplex graphs to bridge structural (DTI) and functional (fMRI) connectomes.
- * Community detection algorithms identifying topological disruptions in early Parkinson.
- * Network resilience and targeted attack simulation on hub nodes.
- * Correlation between topological network metrics and cognitive decline scores.
